BSc Computer Science student at the University of Leeds with experience in AI applications, backend APIs, data analysis, and full-stack development. Interested in building practical AI systems using Python, FastAPI/Django, NLP, RAG, and modern web technologies.

EXPERIENCE

Administration Officer | HKPASS Society, University of Leeds Sep 2024 - Sep 2025

- Used Excel to manage participant records, membership status, and event logistics.
- Assisted in running Flagship, a major inter-university Monopoly event in Leeds, by tracking scores during the event and organizing the final leaderboard.
- Managed seating allocation and membership verification for the Welcoming Dinner, ensuring smooth event registration and attendance management.

Gardening Volunteer | University of Leeds Mar 2025

- Helped local community members tidy and maintain the garden.
- Assisted in building a simple garden pathway for the community.

HACKATHONS & COMPETITIONS

Hack Together: AI Agents Hackathon June 2025

- Built a diabetes detector that predicts diabetes risk from medical inputs and generates diet suggestions using Azure OpenAI services.

Leeds hack_ai_thon Oct 2025

- Developed a personal AI tutor that explains complex topics progressively, guiding students from basic concepts to professional-level understanding.

UBS Finance Challenge 2026 April 2026

- Served as the team's AI analyst, conducting sentiment analysis to identify macro trends in the CMOS image sensor industry.

TECHNICAL SKILLS

- **Programming Languages:** Python, TypeScript, JavaScript, C++, C, SQL, Java, R
- **Backend:** FastAPI, Django REST Framework, REST APIs, authentication, RBAC
- **Frontend:** React, Next.js, Streamlit, HTML, CSS, Tailwind CSS, Bootstrap
- **AI/Data:** RAG, NLP, scikit-learn, pandas, NumPy, FinBERT, Transformers, ChromaDB
- **Tools:** Git, GitHub, Railway, Azure, pytest, Linux/WSL, VS Code, PythonAnywhere

EDUCATION

BSc Computer Science (1st) | University of Leeds Sep 2023 - Present

HKDSE | SKH Tang Shiu Kin Secondary School Sep 2017 - Mar 2023

- Key results: Mathematics 5**, Mathematics Extended Module 5*, Physics 5, English 4

AWARDS

- International Excellence Scholarship (University of Leeds)

PROJECTS

- **Explainable Poker AI:** Perform post-hoc analysis of HUNL Texas Hold'em hand histories, explaining the strategic reasoning behind poker AI decisions throughout a hand.
- **BookIQ:** A deployed book catalogue API with authentication, role-based permissions, CSV import, search, recommendations, analytics, and MCP support for AI-agent use.
- **FAQ Chatbot MVP:** A business FAQ chatbot MVP designed to answer questions from company documents using a retrieval-augmented generation workflow.

LANGUAGE

- Cantonese
- English
- Mandarin

HOBBIES & INTERESTS

- Enjoy solving challenging puzzles and mathematical problems.
- Active in martial arts, squash, running, badminton, and gym training.
- Interested in creative projects, including drawing, Minecraft map design, content creation, and experimenting with cooking recipes.
